## The Gospel According to St. Mark.

By Prof. MATTHEW B. RIDDLE. Being Vol. II. of the International Revision Commentary on the New Testament. By British and American scholars and revisers. Edited by PHILIP SCHAFF, D.D. 1 vol., 16mo, \$1.

"It is a compact little volume, very clear and concise in its expositions; and is the cream of all previous commentaries, which have been put under tribute, not for quotations but for ideas and suggestions, which appear here in new relations and forms of statement."—*Chicago Interior*.

This is the beginning of a series of Commentaries on the New Testament, based upon the REVISED VERSION of 1881, to be issued in small handy volumes. The text is, of course, that of the Revised Version, which hereafter must be the basis of every popular commentary. The American readings and renderings have been, for convenience sake, transferred to the foot of the page, with the exception of those changes which refer to a number of passages.

It is an international and interdenominational work of British and American Scholars and Revisers. The majority of the contributors were officially connected with one of the two companies, and the others were in full sympathy with the work. Moreover, the aim of this Commentary falls in with the International Sunday-School Lesson system, which has done so much in a short time to promote the popular study of the Bible throughout the English-speaking world.

"Most of these volumes have been read by one generation, and are likely to be quite as full of interest for another. They relate to matters which do not lose their interest, and Dr. Holland's treatment of them is of a kind which is not likely to go out of fashion. He writes in a vein which hits the exact line between the sage and the big brother."—*The Independent*.

"To those who love a pure diction, a healthful tone, and thought that leads up to higher and better aims, that gives brighter color to some of the hard, dull phases of life, that awakens the mind to renewed activity, and makes one mentally better, the prose and poetical works of Dr. Holland will prove an ever new, ever welcome source from which to draw."—*New Haven Palladium*.

## NOTES IN SEASON.

HENRY C. LEA'S SON & Co. will shortly issue a work on "Ovarian and Uterine Tumors," by Spencer Wells.

P. BLAKISTON, SON & Co. have just ready the new and entirely revised edition of Meigs and Pepper's volume on "Diseases of Children."

D. LOTHROP & Co. have issued a new edition of E. E. Brown's "Life of Garfield," to which has been added the eulogy by ex-secretary Jas. G. Blaine.

PORTER & COATES have in preparation a new work by Edward A. Freeman, the distinguished historian, which they will publish by special arrangement with the author.

JAMES R. OSGOOD & Co. have just issued a new novel by George Parsons Lathrop, entitled "In the Distance." The story is described as being entirely American, with strong situations and decided contrasts of character. The scene is laid around and upon Monadnoc, which may almost be rated one of the characters of the story.

DODD, MEAD & Co. have just ready "The Sixth Great Oriental Monarchy; or, The Geography, History, and Antiquities of Parthia," collected and illustrated from ancient and modern sources, by Geo. Rawlinson. The volume is uniform with the three volumes comprising the "Five Great Monarchies," by the same author, and is handsomely and liberally illustrated with woodcuts, colored maps, and plate. A list of authors and editors and a full index add to the value of the volume.

T. B. PETERSON & BROS. have nearly ready a new book, by the author of "Helen's Babies," "Mrs. Mayburn's Twins." It is full of fun and humor, vivid and pathetic, with a sweet under-

current of pathos that will please all readers. They have also in press a novel entitled, "Laide" (an ugly woman). Its author is the famous Mme. Adam, editress of the *Nouvelle Revue*, being the Republican Madonna of Paris, who is now commanding the attention of all Europe, and is about to visit St. Petersburg at the invitation of the Czarina.

H. C. BAIRD & Co., Philadelphia, have in preparation a new work on "Varnishing." There are but few works on this subject in the American market, and those we have are somewhat behind the times. The author of the work, Erwin Andres, is a German manufacturer of varnishes and lacquers of high repute, and feeling the need of some such work, he has written "A Complete Practical Treatise on the Fabrication of Volatile and Fat Varnishes, Lacquers, Sealing-lacquers, and Sealing-waxes." The book has been ably translated by Wm. T. Braunt. It will be a 12mo, with illustrations.

R. WORTHINGTON will publish immediately "The Gipsy Queen," by Hugh de Normand. The story is announced as being "full of exciting incidents, graphically told and presented in beautiful language." Mr. Worthington has offered an agreeable surprise to the lovers of all that is fantastic, picturesque, and beautiful, in Théophile Gautier's "One of Cleopatra's Nights," etc. The tale has been translated by Mr. Hearn, one of the editors of the *Times-Democrat*, of New Orleans, who has happily preserved the charm of the original, their warmth of coloring and their weird enchantment.

CHARLES SCRIBNER'S SONS announce for immediate issue John Bigelow's monograph on "Molinos the Quietist," a vivid account of an interesting, though little known, phase of Church history and Jesuit methods; Keary's "Outlines of Primitive Belief," a history of the legendary beliefs of the Indo-European races, volume 7 of the *Campaign* series, "The Army of the Cumberland," by Gen. H. M. Cist; "The Bay Path," in the new edition of Dr. Holland's complete works; and "The Volume According to St. Matthew," by Prof. Philip Schaff, D.D., which is to be the initial volume of the "International Revision Commentary on the New Testament."

GEORGE W. HARLAN will shortly publish a German novel, entitled "Count Sylvius." It is by George Horn, the well-known novelist, and is translated by Mrs. Mary J. Safford. Says the *Mail and Express*: "A writer of less metaphysical fiction than the endless Spielhagen, and associated in some sense with the happier school of Heyse, Horn has yet to be introduced to American readers of German literature. He has marked descriptive power, curious analysis of character—the humors of poor humanity, and the skill of a Wilkie Collins in handling and unravelling plot." Mr. Harlan is also about to publish a novel of Southern life after the war, entitled "The Homestretch," abounding in character sketches, white and colored, by Miss M. A. Collins, of Tennessee. He will also publish at once a posthumous work by the late Mr. Abram C. Dayton, a collaborator of Mr. Charles King, editor of the *New York American*. It will be entitled "Last Days of Knickerbocker Life in New York."

## WEEKLY RECORD OF NEW PUBLICATIONS.

In this list, the titles in briefer are direct transcriptions from books actually received, according to the rules of the American Library Association; those in nonpareil are from the best information available, and will be repeated in briefer when the book is received for registry.

A colon after initial designates the most usual given name, as: A: Augustus; B: Benjamin; C: Charles; D: David; E: Edward; F: Frederic; G: George; H: Henry; I: Isaac; J: John; L: Louis; N: Nicholas; P: Peter; R: Richard; S: Samuel; T: Thomas; W: William.

## WEEKLY RECORD OF NEW PUBLICATIONS.

In this list, the titles in *brevier* are direct transcriptions from books actually received, according to the rule of the American Library Association; those in *nonpareil* are from the best information available, and will be repeated in *brevier* when the book is received for registry.

The abbreviations are usually self-explanatory. A colon after initial designates the most usual given name, as: A: Augustus; B: Benjamin; C: Charles; D: David; E: Edward; F: Frederic; G: George; H: Henry; I: Isaac; J: John; L: Louis; N: Nicholas; P: Peter; R: Richard; S: Samuel; T: Thomas; W: William.

Sizes are designated as follows: F. (folio; over 30 centimeters high); Q. (4to: under 30 cm.); O. (8vo: 25 cm.); D. (16mo: 20 cm.); S. (16mo: 17½ cm.); T. (24mo: 15 cm.); Tt. (32mo: 12½ cm.); Fe. (48mo: 10 cm.). Sq., obl., nar., designate square, oblong, narrow books of these heights. Where figure instead of letter symbols are used, the record is from publisher's designation, and not measurement.

Imported books are marked with an asterisk; authors' and subscription books, or books published at net prices, with two asterisks; educational books published at "wholesale" prices, with a dagger.

## COMPARATIVE BOOK PRODUCTION.

AMERICAN publishing, although far more productive during the last year than in any previous one, still makes a poor show as compared with the figures of France and Germany, and even of England. The *Bibliographie de la France*, during 1881, recorded 12,261 books and pamphlets issued from the French press. The *Börsenblatt*, in its comparative table of the German publications of 1880 and 1881, gives for the former the total of 14,941, and for the latter, 15,191. The London *Publishers' Circular* reported for 1880 a total of 5834 publications, and for 1881, 5406. The PUBLISHERS' WEEKLY recorded for 1880, 2076 American issues, and for 1881, 2991.\* It should be borne in mind, however, that in addition to a far more extensive literary production, France and Germany also have an almost perfect system of bibliographical record, while, in this country, the bibliographical record, although in the main representative, is numerically far from complete. In France the deposit of every publication down to the smallest pamphlet, or leaflet, is required by law; in Germany no publication, however important or extensive, goes on record without the deposit of a copy at Leipsic—and the rule in Germany works as perfectly as the law in France. In the United States the chief bibliographical record is left to the private enterprise of the PUBLISHERS' WEEKLY, which is dependent upon the intelligence and good-will of its publishing constituency. Although the majority of our publishers have learned to recognize the

\* It is proper to state here, what more properly should have been noted in our "Annual Summary," where, by oversight, it was omitted, that owing to their separate and, thus far, only partial record in the PUBLISHERS' WEEKLY, the United States Government publications issued in 1881 were not included in the comparative tables given in the WEEKLY of January 28. These publications will, in subsequent tables, form a considerable addition.

value of an official record perhaps as fully as their French and German brethren, it is a singular fact that only a few houses give us the opportunity to do bibliographical justice to *all* their issues. It frequently occurs that an important book, and one on which booksellers and librarians should be posted at the earliest moment possible, in order to enable them to meet the public demand, has found its way to the office of some second-class newspaper long before it reaches the PUBLISHERS' WEEKLY; and the copying of titles from newspapers and journals, and their verification by a protracted and often unsatisfactory correspondence, is still a regular and trying occupation of the bibliographer of the PUBLISHERS' WEEKLY. The publishers of law, medical, scientific, or technical books, are those who, more than all others, seem to neglect to supply the essential requisites—as if an expensive, scientific, or professional book could less afford, or less needed, a permanent record than an ephemeral or popular publication! Expensiveness, however, can scarcely be the cause of such neglect, as the PUBLISHERS' WEEKLY is known to return, when desired, any work of exceptional value.

## WESTERN JOBBERS' PROTEST.

It is only a matter of time! But none of the many arguments brought forth by the PUBLISHERS' WEEKLY during a number of years, carries so much conviction as the following concise appeal. It rests on that one bare fact, borne out by experience—"pernicious." Trade sales within their proper province, which is the disposal of superannuated stock, serve a legitimate purpose; but as channels for the distribution of fresh stock, they are, at this advanced age of telegraph and telephone, as much out of date as are the old sailing-vessel and lumbering stage-coach for the carrying of the mails. If they only were as harmless as the latter!

To Messrs. Harper & Brothers, Chas. Scribner's Sons, D. Appleton & Co., J. B. Lippincott & Co., Roberts Brothers, Houghton, Mifflin & Co., J. R. Osgood & Co., Lee & Shepard, Estes & Lauriat, and others.

DEAR SIR: We have found, after years of experience in trade, that Book Trade Sales are, in the main, most pernicious to our trade as jobbers in books.

We would respectfully beg of you not to contribute to the coming spring sale, and to no future sale.

"It is rumored," says the *Athenæum*, "that the Canadians are desirous of absolute independence in the matter of copyright, and that the Hon. Wm. Macdougall will introduce a Bill on the subject in the present session of the Dominion Parliament. The complaint of the Canadians is that English books are too dear; yet," adds, with charming *sang-froid*, the same amiable journal, "our sixpenny editions are cheaper than any which they can produce themselves or import from the United States."

As England, to-day, can boast of just about six new-fledged sixpenny editions, Canada, no doubt, will now contentedly feed on these "crumbs of comfort."

"Though the negotiations for a copyright convention between the United States and this country are proceeding slowly, no doubt is entertained in United States publishing circles as to the result. In consequence of this several firms are paying English authors larger terms for advance sheets than they have heretofore paid. Some publishers who have been in the habit of reprinting books without paying the English author, are now offering remuneration, in order, doubtless, to be in his good graces when a copyright convention gives him freedom of contract."

It would scarcely be necessary to add that this gratuitous compliment paid to the sagacity of American publishers, must be credited to the London *Athenæum*, might it not be mistaken for one of the famous "international" courtesies of Mr. G. W. Smalley, in the *N. Y. Tribune*. For "birds of a feather," etc.

#### THE PHILADELPHIA BOOK TRADE.

THE tenth anniversary of the Book Trade Association, composed of book publishers and gentlemen representing allied interests, was celebrated on the evening of February 23, at Finelli's, Chestnut Street, below Broad. At 6.30 o'clock the following-named gentlemen sat down to the annual dinner of the association:

A. G. Elliott, H. T. Coates, J. M. Stoddart, W. P. Hazzard, John E. Potter, R. S. Menamin, E. T. Talmage, George R. Fagan, Francis Wells, Irvin Megargee, Horace N. Claxton, James M. Wilcox, Thomas E. Gaskill, John A. Black, Frank McLaughlin, Walter McMichael, R. E. Hastings, C. C. Febiger, A. J. Holman, Jr., J. M. Ferguson, Henry C. Baird, John Simmons, Joseph E. Winner, S. M. Elliott, George Thompson, Roger Sherman, Charles M. Lea, Joseph B. Mitchell, F. W. McDowell, J. R. Sypher, Eugene H. Munday, J. C. McCurdy, John F. Smith, Richard G. Oellers, George S. Ferguson, S. C. Collins, H. S. Smith, Charles Haskell, E. Gately, Charles S. Smith, A. B. Hubbard, J. E. Barr, and Hector Orr.

After the discussion of an elaborate menu, Willis P. Hazzard, who acted as chairman in the absence of Thomas MacKellar, who was detained at home on account of illness, called the association to order, and, after expressing regret at the absence of the president, delivered

a brief address, in which he sketched a history of the organization and the circumstances under which it was formed, and then spoke of its usefulness during the ten years of its existence. He mentioned the names of fourteen original members who have died, including Bloomfield H. Moore and Sylvester J. Megargee.

At the suggestion of one of the members, the company arose and drank in silence to the memory of the deceased members.

A. G. Elliott, secretary of the association, then presented his annual report. This read as follows:

"To-night we have the pleasure of commemorating the steps taken ten years ago to perfect an organization that has not only been an honor to our name and our city, but a bulwark of defence. I shall, therefore, briefly recall facts of interest.

"The first meeting was held February 23, 1872, in the rooms of Messrs. Cowperthwait & Co., Seventh and Chestnut Streets. The invitation was responded to by nearly all, if not all, the branches of industry pertaining to book-making. On April 3, 1872, the association was started on its mission of good, with eighty-seven persons and firms as its sponsors, and a pleased treasurer, who swelled his bank account at \$5 a head.

"Early in its existence, May 23, 1872, it was called to defend the tariff on paper, books, etc., and sent a strong protest by a delegation to inform Mr. John Sherman, chairman of the Finance Committee of the Senate, of its objections to any change. The memory of that visit comes as a silent benison, recalling how our worthy first vice-president, in an elaborate article explaining our views, was quietly told 'to cease reading, hand it up, we will consider your remarks;' but when the publisher of the *Printers' Circular* spoke for ten thousand of the most intelligent printers, the mighty statesman laid down his pen and deigned to listen. He evidently respected the printers' press.

"The same year it exhibited its adherence to its principles by sending to ten colleges, South and West, complete sets of H. C. Cary's textbooks on political economy, so that the future legislators might be educated in the best doctrines of statesmanship as pertains to America and American industries.

"On May 7, 1874, it made its protest so strong on the State Senate bill appointing a commission of experts, who were to select text-books for the schools, that the bill did not pass, and thereby saved houses in the school-book trade from being driven out of business by favoritism.

"June 20, 1874, it protested against the Canadian reciprocity treaty, and by the wide dissemination of its views it had the influence to kill the bill.

"April 3, 1876, it objected to Senator Hamlin's bill for postage on third-class matter, and its power was felt.

"January 22, 1877, it entered its protest on Professor's Seelye's bill to repeal the duty on books, and, by enlisting other organizations, saw the bill defeated.

"February 6, 1878, its voice is heard on the tariff question, and

"May 8, 1880, the Tucker Tariff bill was objected to—an instrument so crude that it paralyzed the revival in trade and led to the advocacy of a commission to revise the tariff.

"Lastly, its efforts have been of no uncertain

character on the question of an International Copyright law.

"In all our efforts we have never been second, and as leader may we ever hold our position.

"I have thus briefly as possible recalled some of the work done by this association, and knowing this, it is hoped your cordial support will be vouchsafed in the future.

"Organized for social intercourse and protection, it points with pride to a record unsmirched by petty interests or a want of harmony among its members.

"Its voice has never been mistaken or unheeded in directing just legislation on American interests.

"Its influence is no longer doubted, and, as we have laid the foundation, it still rests with us to build so well that those who follow our footsteps may, in examining our work, say, 'Well done, good and faithful servants.'

"We have had many pleasant meetings, but of those who wished us God-speed at the birth fourteen have passed to their reward, and we miss their form and counsel. I recall the list—John Fagan, B. H. Moore, A. Westcott, George Remsen, A. Kirkpatrick, E. Deacon, J. Gresimer, W. H. Flitcraft, Robert King, and his partner, H. Neff, John McLaughlin, S. J. Megargee, Charles Murphy, E. Cumiskey, and but a few days ago we were called to pay our last respects to one one who, though not a member, took much interest with us. I refer to J. B. Mitchell, whom we expected to have had with us to-night.

"May we not think the world has been the better for their living, and say, 'Green be the grass above them.'"

Henry Carey Baird was then called upon by the Chairman to respond to the toast, "The Old-time Booksellers." He was greeted with applause as he arose, and at the suggestion of J. M. Ferguson the company drank his health. Mr. Baird said that as his own connection with the book trade extended over a period of but forty years, his remarks in regard to the trade prior to that time would necessarily be confined to the connection of his own family with the book business. His grandfather, Matthew Carey, born in Dublin, 1760, was at the age of 15 apprenticed to a bookseller and printer in that city. In 1783 he established the *Volunteer's Journal*, and in the following year was prosecuted and imprisoned for an attack upon the Irish House of Commons and the Premier. On being released at the close of the session of the House of Commons, and having an indictment hanging over him for the attack upon the Irish Premier, it was deemed desirable for him to leave Dublin, and he emigrated and came to Philadelphia, where he arrived on the 1st of November, 1784. He soon found a friend in Lafayette, who without solicitation loaned him \$400, which was afterward returned, and with which, on the 25th of January, 1785, he founded the *Pennsylvania Herald*, followed by the *Columbian Magazine*, *The American Museum*, and a few years subsequently by a general publishing and bookselling business, which was followed with great success until 1821, when he finally retired. Mr. Baird mentioned various facts in regard to the extent of the business conducted, and that in 1805, although not then 12 years old, the late Henry C. Carey had taken charge of a branch house established by his father in Baltimore, and that he had now in

his possession a number of business letters written by Mr. Carey at that early age. He then went on to speak of the various changes that had taken place in the Carey concern, which had existed under the firm-names of Matthew Carey, Matthew Carey & Son, Matthew Carey & Sons, Carey & Lea, Carey, Lea & Carey, Carey, Lea & Blanchard, Lea & Blanchard, and Carey & Hart, to which latter firm he went as a boy in 1841, succeeding to the interest of Edward L. Carey, on his death in June, 1845, when the business was conducted by himself and A. Hart until December, 1849, when he went into it on his own account and established the concern now existing under the firm-name of Henry Carey Baird & Co. He gave various recollections of the houses existing in 1841, such as Grigg & Elliott, Hogan & Thompson, J. B. Lippincott, Thomas Cowperthwait & Co., Henry Perkins, Henry F. Anners, Kay & Bro., Herman Hooker, Haswell & Barrington, and others. In conclusion, he said that he believed that the oldest surviving bookseller in the United States was Isaac Lea, now 90 years of age.

Mr. Hazard followed with a brief sketch of the changes he had witnessed in the book trade, in prices, etc.

Hector Orr was introduced, and, after having been applauded heartily, gave his reminiscences of the printers of the city. The printers he considered the unconscious Levites in the true temple of civilization. Isaac Ashmead was the speaker's preceptor. He had been Mr. Orr's Sunday-school teacher in 1818, and three years later Mr. Orr became his apprentice. An interesting sketch was given by Mr. Orr of the growth of Isaac Ashmead's business, the introduction of a Ramage press; then the employment of "two blind horses and a black man with only one eye," to supply the power of the presses; then the acquirement of a six-horse-power engine, built by Matthew Baldwin, and the wonder of the day, being severally dwelt upon.

The most that the best two men of his day could do in his earlier days was to pull 500 impressions an hour of a medium-sized sheet. The Bullock press, which the speaker had helped into success, will run 20,000 impressions an hour of sheets four times the size of those first spoken of. The printing business to-day, he said, is well divided among excellent men, and has inherent excellence in it, but is poorly paid. He believed a better literature was what would send the trade forward.

J. R. Sypher followed in an elucidation of the Copyright law and the difficulties that stand in the way of an international treaty on the subject, and Francis Wells responded to a toast to "The Press."

R. S. Menamin moved a vote of thanks to the secretary, A. G. Elliott, for the ability with which he had guarded its interest from its inception. The motion was unanimously carried amid applause, and a vote of thanks was also tendered the Committee on Entertainment, consisting of Henry T. Coates, A. G. Elliott, and J. M. Stoddart.

Brief speeches were then, in response to calls, made by several gentlemen representing the various interests included in the association, after which the anniversary terminated with the singing of "Auld Lang Syne," joined in by the entire company.

## JOURNALISTIC NOTES.

The publishers are determined to place this Magazine in the front rank of American periodicals, and to this end have enlisted the active co-operation of the best historical writers of the country.

THE *National Sunday-School Teacher*, of Chicago, after 17 years of usefulness, is to be merged in *The Sunday-School Times*. The ownership of that magazine, started under the editorship of Dr. John H. Vincent, and continued under the editorial control of Dr. Edward Eggleston, and of Mr. M. C. Hazard, together with that of its varied lesson helps, now passes from the Adams, Blackmer & Lyon Publishing Co. to Trumbull & Wattles, proprietors of *The Sunday-School Times*; and after the March number its issue as a separate publication will be discontinued. Mr. M. C. Hazard, the editor of the *Teacher*, will become one of the editorial force of *The Sunday-School Times*.

A NEW and revised edition of Dante Gabriel Rossetti's "Poems" is being prepared by Roberts Brothers.

D. LOTHROP & Co. have planned a *Vif* series of books, of which the first volume will be "The Pettibone Name," by Margaret Sidney.

"AMENITIES OF HOME," one of the *Appletons' Home Books*, is spoken of in high terms by the London *Saturday Review*. It pronounces it "simple, unaffected, and unpretentious," and declares that it contains "more sound practical sense upon a subject interesting to all, and yet on which few can write what is worth reading, than any book of good advice we have lately seen."

"WHAT is Presbyterian Law as Defined by the Church Courts?" is the title of a new and valuable volume that will soon be published by the "Presbyterian Board," Philadelphia. This work has been prepared by its author, Rev. J. Aspinwall Hodge, D.D., with painstaking and laborious conscientiousness, with the belief that it was a work greatly needed and worthy of his thought and toil. This work will be of immense interest to the Presbyterians.

G. P. PUTNAM'S SONS have now in press a unique and comprehensive work, which has been prepared by Lieut.-Commander Henry H. Gorrington, U.S.N., to be entitled "Egyptian

**Obelisks: Their History and Characteristics.** The book is to be printed in folio, and will contain 49 plates, of which 32 are full-page artotypes, and 17 photo-plate diagrams. The account of the engineering operations by means of which the obelisk now in New York was placed on the vessel and transported from Egypt, is given in full, and will possess a historical as well as a scientific interest. They have also nearly ready a small volume, entitled "First Aid to the Injured," by Peter Shepherd, revised, with additions, by Bowditch Morton, M.D., which will be published on behalf of the recently organized "First Aid to the Injured" Society. This will be followed immediately by a volume from the pen of the veteran econo-

mist, David A. Wells, entitled "Our Merchant Marine: Its Rise, Progress, and Decline," with some considerations as to its restoration. The first "Economic Tract" of the series of 1882, published for the Society for Political Education, will be an essay by Alphonse Courtois, entitled "Political Economy in One Lesson." This has been translated, with an introduction, by Worthington C. Ford, who is also preparing for Messrs. Putnam the "American Citizen's Manual," a volume planned to afford, in compact and comprehensive form, full information as to the nature of the organization of American government, national, state, and civil, and as to the duties, obligations, and responsibilities of citizens.
